## Product Information: SVHC

Dear Valued Customer,

Based on the information available to us from our raw material suppliers the current products offered in the product lines listed below do not contain as intentionally added raw materials any of the substances of very high concern (SVHC) above a limit of 0.1 % w/w according to the candidate list, article 59 (1, 10) European REACH regulation (EC) No. 1907/2006. To the best of our knowledge, none of these materials are generated during production.

Please note that inclusion of a substance on the candidate list does not automatically lead to a substitution and subsequently to a ban. Listing only indicates that these substances might become subject to authorization.

As only candidate substances may become subject to authorization this SVHC statement implicates substances listed in Annex XIV.

So far, we are not aware that the articles supplied to you (product packaging) contain substances included in the Candidate List in concentrations above 0.1 % (w/w) each. Should our state of knowledge change, we shall inform you accordingly.

**F o r n o t i c e :** Many substances are present in small quantities anywhere, they are ubiquitous. The observance of all these substances is not part of BASF's ongoing production control. In view of the many factors that may affect processing and application of our products, these data do not relieve the processor from carrying out their own investigations and tests, neither do these data imply any guarantee for certain properties nor the suitability of the product for a specific purpose.

The information provided in this statement is based on our current knowledge and experience, and on the state of the REACH regulation on the date of issue. New certificates are published in the internet portal in case of alterations; the former certificates automatically become void. Therefore, we urgently ask you in your own interest to regularly check the confirmations issued in the internet portal with respect to modifications or changes. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.

This product information was generated electronically and is valid without signature.
